It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

The error appears on the Cover Page of the issued patent in the first letter of the Assignee's name. The issued patent reads: "MRL Laboratories, LLC, Malibu CA (US)" and it should read "HRL Laboratories, LLC, Malibu, CA (US)".

This error appears to be a typographical error attributable to the USPT Office, as the Assignment recordation paperwork and the issue fee transmittal (copies of both forms are attached) show correct spelling of the Assignee's name.

If possible, an expedited issuance of the Certificate of Correction is requested.

(57) **ABSTRACT**

The present invention provides a method and apparatus for extending a zone routing protocol. The invention is configured to provide a robust scalable framework for routing data in wireless ad-hoc networks when unidirectional links 210 are present. When the reverse path from a destination node (the tail) of a unidirectional link 210 to the originating node (the head) of the link is beyond a designated length, the invention is configured to revert to an on-demand search mechanism. The on-demand search mechanism recursively attempts to build a path to the destination 206 by recognizing nodes that have a route to the destination.
